Summary

Results-driven software engineer, web developer, and user experience designer dedicated to leveraging cutting-edge tools to build impactful solutions and drive positive societal transformation. With an unwavering commitment to continuous learning and a growth mindset, I strive to stay at the forefront of technology advancements. Skilled in crafting intuitive, user-centric experiences, I adeptly blend creativity and functionality to deliver exceptional digital solutions. Seeking to apply my expertise and contribute to high-impact projects that make a lasting difference.

Internship

Web developer

Innovation Growth Hub

June 2019 - January 2020

- Enrolled in Scratch Boot-camp, actively participating in intensive training sessions.
- Assumed a leadership role by mentoring fellow students in Scratch Boot-camp, fostering a collaborative learning environment.
- Independently developed multiple programming websites as personal projects to refine skills and gain proficiency in various coding languages and frameworks.
- Engaged in the Technovation competition, collaborating with a team to conceptualize and prototype a mobile app addressing a social or community issue.
- Attended the Women Tech Makers Conference, gaining valuable insights into emerging trends and industry practices.
- Participated in the Google Developer Conference, expanding knowledge and staying abreast of cutting-edge technologies.

Web developer

Pearl Impact Network Africa (Volunteer) - present

May 2023

- Updated and revamped the PINAfrica website, ensuring it reflects current information and aligns

with organization's goals and values.

- Actively participated in the Technovation competition, collaborating with a team to develop a mobile app prototype aimed at addressing the issue of counterfeit items.
- Leveraged diverse frameworks to optimize the functionality and design of the website, resulting in a contemporary and visually captivating online platform for the organization.

Education

Collage, Focus High School, Abuja

I have recently achieved the completion of my high school education and am presently pursuing admission into a Bachelor's degree program.
